AI CONTENT CREATOR

Images, video and websites — made with AI systems
I build myself, in code.

[About me]

I'm Valentín, from Conil de la Frontera (Cádiz). I studied Marketing in Seville and then a BA (Hons) in Marketing at York St John University, in the UK.

I generate images and video with fal.ai models running on rented cloud GPUs, controlled from my own code instead of one-off prompts. Then I design with the results: ads, brand videos, websites and social content.

[Experience]

AI video creator	Línea 013 Cerramientos
Freelance web designer	Independent clients
Marketing intern	ESSDM, Seville · 2025
Web management intern	Cosmeceutical Center · remote · 2025

That's me

[How I work]

***FULL EFFORT.
ANY SIZE.
ANY INDUSTRY.
ANY SCHEDULE.***

Every project gets my maximum effort, whatever its size. I adapt to your hours and to any industry or market — pet products or financial services, a brand-new startup or an established company. Same attention, same care.

[Services]

[01]

AI VIDEO

Brand and product videos generated with AI. For Línea 013 Cerramientos I made a video presenting one enclosure type from their catalogue (internal piece).

LÍNEA 013 — CATALOGUE SHOWCASE

[WATCH THE VIDEO ↗](#)

[02]

AI IMAGERY

Consistent AI characters and ad-style images from my own code-driven generation system. I also run virtual influencers made with AI as a personal project.

FAL.AI × CODE

PROMPTS IN · IMAGES OUT · AT SCALE

[03]

WEBSITES

Websites and landing pages for freelancers and artists. RDK is a one-page press kit for a Cádiz DJ (unreleased: the artist chose not to launch it).

[04]

SOCIAL CONTENT

Posts, Reels and campaign content. Marketing internship at ESSDM, a fashion school in Seville (April–June 2025).
